## A COMPANY OF ENGINEERS

- Thirty-year history of success and continued growth in the United States
- 200+ professionals – engineering, scientists and construction professionals with world class expertise
- Headquartered in New York City (NYC) area with operations in the U.S. southwest and U.S. Gulf Coast
- Track record on some of the most significant projects in U.S., relating to infrastructure and disaster response
- Leader in climate change resiliency projects in New York (NY) and New Jersey (NJ)
- Leader in disaster response services including multi-disciplinary damage assessments

Matrix New World Engineering is a company of engineering and science experts who focus on some of the nation's most pressing long-term challenges, including climate change, water supply, disaster response and urban revitalization. Applying our expertise to areas where these challenges are becoming particularly acute, Matrix intends to further focus our offerings and expertise on these and other emerging National Strategic Issues, where solving environmental challenges through careful planning and engineering is becoming an indispensable measure of success.

Matrix is a growing woman-owned business with offices in New York, New Jersey, Arizona, Louisiana, and project experience throughout the U.S. and the Caribbean.
