Construction Management Services by Matrix

Matrix New World Engineering, Inc. Construction Management Services

In addition to providing environmental, geotechnical, civil engineering, spill response and surveying services, Matrix New World Engineering, Inc. (Matrix) also provides Construction Management services.

Matrix's experience in this field includes providing inspection services on major transportation and infrastructure projects throughout the New York and New Jersey area. We have worked for clients such as NJ Transit, MTA, Metro North, and NYC DDC.

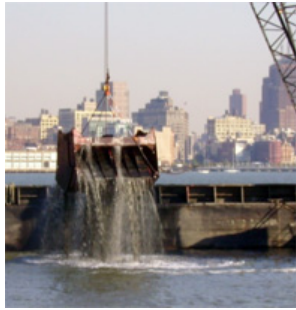

Port Imperial Ferry Terminal

In addition to our environmental and engineering personnel, we also have a staff of professionals with experience in electrical, mechanical, and foundation engineering. Matrix can support your project with office engineers, administrative support and inspection personnel. Our firm is the largest women owned engineering firm in the Northeast. We are certified as WBE, SBE, and DBE covering the Northeast, Southeast and Arizona.

If you would like additional information on our Construction Management services or any of our other services please email us at MatrixCM@matrixnewworld.com or contact Clare Sullivan, CHMM, CSP at 973.240.1800, or csullivan@matrixnewworld.com.
